AMMC Alaska Stellar Sea Lion Census Datasheet

Observer Ann Dee **City** King Cove **Region** _____

Instructions:

1.) Date and time of observed Marine Mammal.
2.) You will then pick a number from the Weather Key for each of the four columns following the time.
3.) Fill in the observed Latitude and Longitude, and the your local Location name.

Please review your data and make sure all of the information you are recording is accurate before turning in.

Weather Key –

Number	1	2	3	4	5
Wind Speed	Calm (<5kts)	Lt. Breeze (5-15kts)	Lt. Winds (16-25kts)	Windy (25-35kts)	Very Windy (>36kts)
Air Temp.	<40 F	40-49 F	50-59 F	60-69 F	NA
Sky	Clear	Partly Cloudy	High Overcast	Low Overcast	Fog
Precip.	None	Drizzle	Rain	Lt. Snow	Heavy Snow

Disturbance: If you suspect that a haul-out has been disturbed (*eg.* by fishing boats, kayakers, your vessel/plane, etc.), record the source of the disturbance and briefly describe its effect in Comments (*eg.* no seals present or ~30 seals entered water). If you feel the disturbance compromised your visual count and/or the number of seals photographed, put an "X" in column **D** and circle the affected Visual Count and/or Photo #s. These counts should not be used in the analyses so record this information carefully.

Date	Local Time	Wind Speed	Air Temp.	Sky Observ.	Precip. Observ.	Observed Lat/Lon	Location Name	Photo Frame #'s	Visual Count	D	Comments	Photo Count
1/15/08	2:11 pm	2	1	2	1		Peter Pan dock	Ø	1		Saw 1 sea lion in the water by a boat	Ø
